

taking care of energy and the
environment

Innovatieparade Bio-energie: Groen warmtenet op 40 graden in Roosendaal

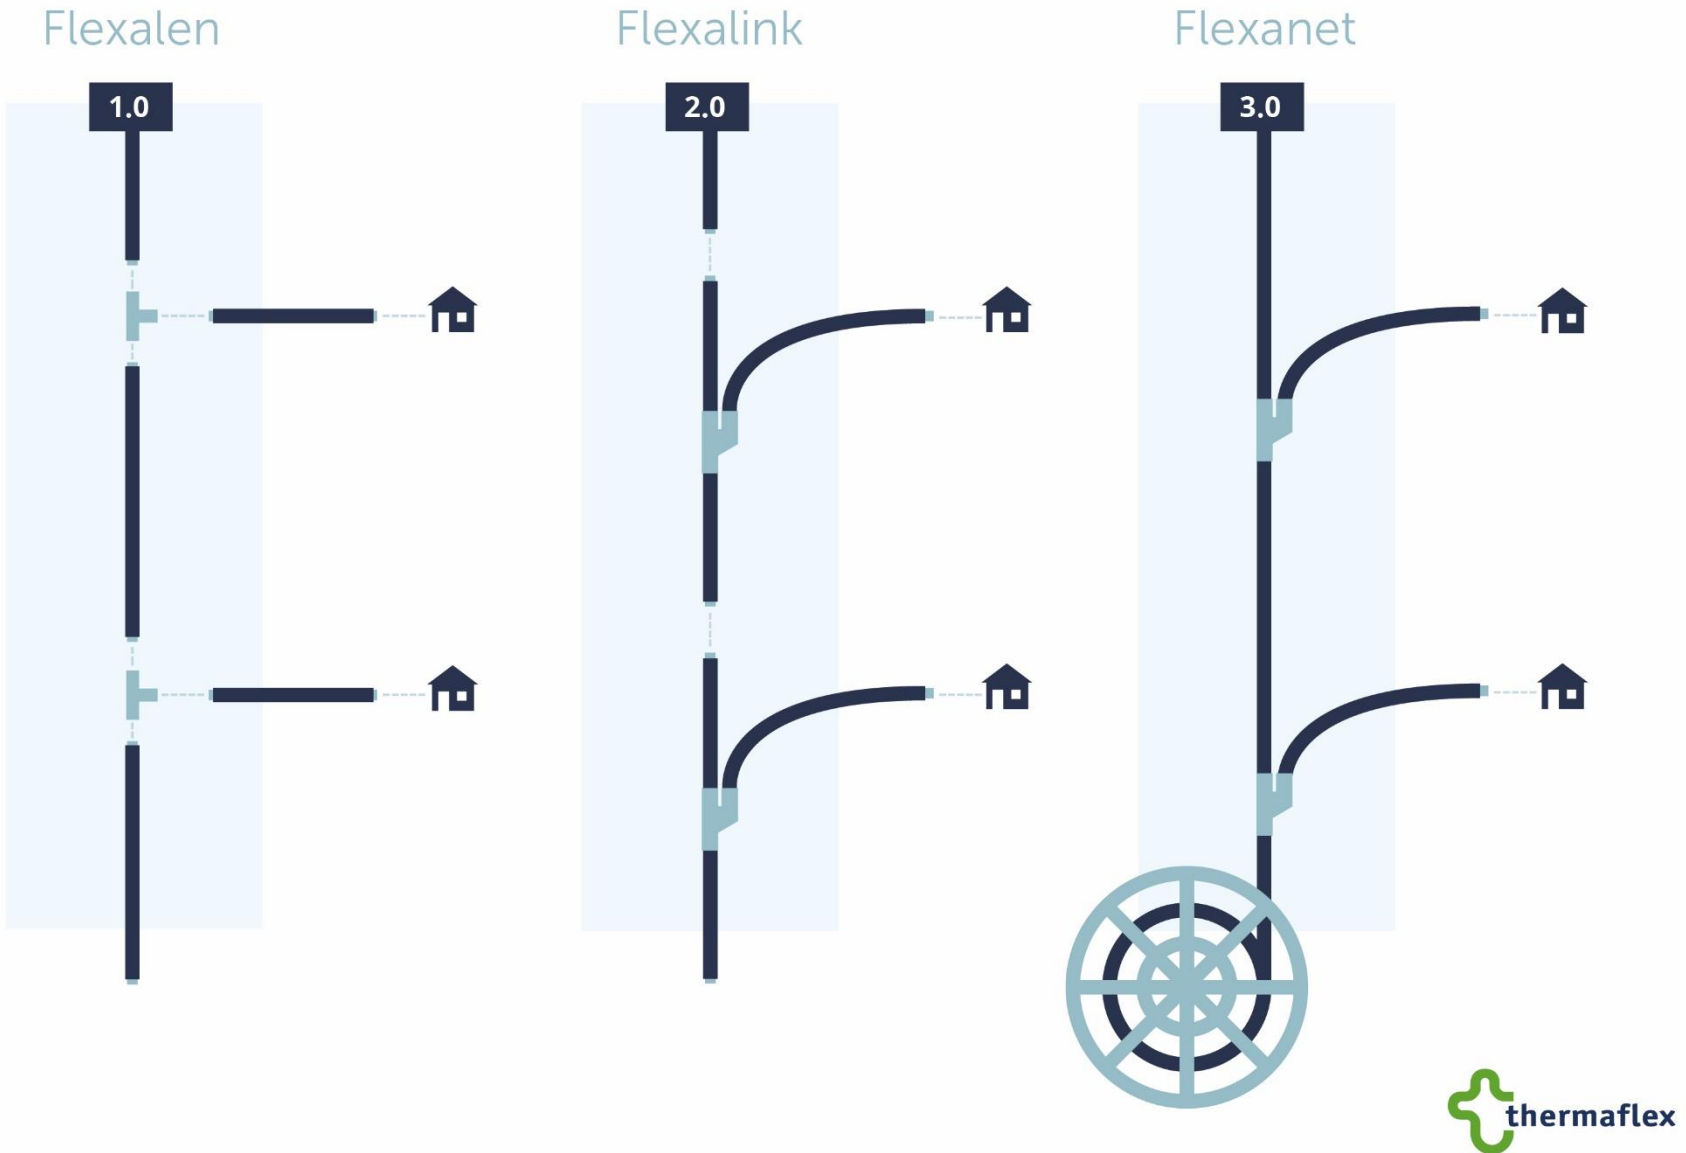

A hand is shown holding a small green seedling with a red root ball. The seedling has two leaves and a thin stem. The root ball is red and has some soil on it. The hand is holding the seedling between the thumb and index finger. The background is a bright, cloudy sky. There is a faint, blue, geometric network pattern overlaid on the hand and the seedling, suggesting a connection to technology or infrastructure.
